RE: Spy Centre Security

To Whom It May Concern:

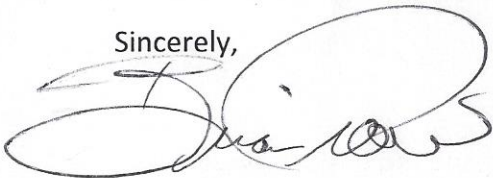

I'm happy to give Michael Dear and Brian Frazier with Spy Centre Security a glowing reference. They are both professional and knowledgeable and willing to go the extra mile to get the job done. The project they did for the Creeks of Willow Bend HOA, for license plate camera surveillance, was very impressive and the follow up has been great.

I bid this job out to several other companies and Spy Centre Security was by far the best company to deal with. The response time and willingness to work around all the obstacles was outstanding. The Board of Directors was very impressed with their knowledge and hands on approach. They were the only company that would come out and do a demonstration of their product on site, so the Board could see the quality of the equipment and service Spy Centre Security gives their clients.

I know other managers in my company have used Spy Centre Security and they all have given glowing accolades to them. Michael and Brian with Spy Centre Security are step above all the competition.

If you have any questions please give me a call at 972-960-2800 ext. 314.

Sincerely,

Brian Crow
